2. In support of the taxpayer's position, he offered the testimony from the following witnesses:

Attorney Paul Gibbons was present on behalf of the taxpayer and called Richard Lavoie, appraiser, as witnesses for the taxpayer. Steve Smith, taxpayer, was present also.

3. Overvaluation:

In this appeal, one of the taxpayer's concerns and arguments focused on his belief that the property was substantially overvalued and the assessment is illegal because it does not reflect "just value" or "market value". The evidence of overvaluation the taxpayer presented was based on the appraisal of the subject property done by Richard R. Lavoie as of April 1, 2010 for the purpose of deriving a market value estimate for property tax abatement considerations.

**IV. Board Deliberation & Vote**

Finding of Facts Determined by Consensus.

**Finding of Facts**

1. The appellant has standing for this appeal by virtue of his ownership of this property.
2. The appeal was timely filed with proper materials.
3. The written communication between the Town of St. George and the taxpayer regarding the denial of the appeal and the appeal process was clear.
4. The Town of St. George did not adequately prove that a 25% increase in value for a developed lot vs. an undeveloped lot was an appropriate adjustment.
5. The Mosquito Head lot sales as submitted by the Town of St. George as comparables to the subject lots are considered by the Knox County Board of Assessment Review to not be applicable.
6. The appraisal did not demonstrate any relationship between the valuation of the subject property in the Town of St. George and the comparable property sales in South Bristol.
7. There was no quantifiable demonstration of the value impact on the subject property from the Right of Way easement.
8. There was no quantifiable evidence to show that the current assessment for the building on the subject property is incorrect.
9. The Knox County Board of Assessment Review is specifically addressing the Philip L Smith, II appeal of the assessed valuation and makes no conclusion as to the value of any other parcel in St. George.
10. The Knox County Board of Assessment Review changes the assessed base lot value for the subject property from \$758,600 to a value of \$562,500. This, added to a second acre value of \$2,580 plus the two lot improvements at \$6,000 results in a total land assessed value of

\$571,080, rounded to \$571,100. This adjusted amount is based on a 25% reduction of the base lot value.

Based on the Board's review of the written information submitted by Mr. Philip L. Smith, II and the Town of St. George Assessors, and after oral presentations by Robert Gingras, Assessors' Agent for the Town of St. George, Richard Lavoie, appraiser, and Paul Gibbons, attorney for the taxpayer, the Board determined as follows:

The Board finds that that the taxpayer's testimony was persuasive on the issue of substantial overvaluation. The Board finds that the Assessors' Agent did use the same methodology consistently to assess the Smith property and those properties that are similarly situated in the neighborhood; however, the Town of St. George did not demonstrate support of a 25% increase in value for a developed lot vs. an undeveloped lot. The taxpayer succeeded in providing evidence that the Assessors' methodology necessarily resulted in substantial overvaluation of the Smith property.

Based upon the foregoing, the Board finds that the taxpayer proved that the assessed valuation of his property was manifestly wrong; therefore, the Board partially grants his request for abatement relating to the April 1, 2010 tax year.
