

Rockland Police Department
in association with Law-Tech Consultants, LLC presents

Forensic Statement Analysis

an Intensive 3-Day Workshop

August 29, 30, 31, 2016 - 0800 to 1700 hours

Location: Knox County Public Safety Building, EMA Office, 301 Park Street, Rockland, Maine 04841

This is essential training for **Patrol Officers, Detectives, Human Resources, Internal Affairs, Hostage Negotiators . . .** virtually **ANYONE** who needs to determine the truth and detect deception!

ALL INCLUSIVE - NO PRIOR TRAINING REQUIRED!

In this workshop you will learn:

- The mathematical formula to balance a true statement
- The 3 questions of the verbal lie detector
- The 16 Evasive Verbal Responses (EVRs) and their antidotes
- The recipe for a confession
- How to spot the "Lies of Omission."
- How to take a statement
- How to treat a statement as a crime scene . . . and so much more!

Forensic Statement Analysis (FSA) is a process that **YOU** can perform to recognize truth and deception by analyzing a person's own written **or spoken** words. In this workshop you will learn possibly the most valuable skills a modern day investigator can possess.

Your instructor is Gary Aschenbach, a 25 year veteran of the Maryland State Police who served in the patrol division as well as 8 years undercover, and as a criminal investigator and a supervisor. He is a recognized expert in this field and has presented this training internationally since 1996.

Gary presents actual cases, along with years of his own personal experiences that are sure to motivate and interest even the most seasoned investigator. Don't pass up this opportunity to increase your skill set and elevate your value to your employer and community.

Seating is limited - Register on-line Today!
